

FURLOUGHED GOVERNMENT EMPLOYEES

A credit union is owned and run by its members, so we are a community of friends and family helping our neighbors. It's our mission to be there for you no matter if times are good, or times are hard.

If you are a furloughed government employee in need of some financial options to carry you through, and out of this government shutdown, come in and talk to one of our loan officers.

Together, we'll find a simple solution to keep you going with different loan options from zero to low-interest, a short-term loan or work with existing federally employed loan members to defer payments during this time.

Existing members or non-members who meet membership eligibility, may apply in person, or call us at 1-800-804-7555.

NorState FCU cares about all who are experiencing loss of income, and encourage you to come in and speak to a loan officer so we can help you find financial assistance or guidance during this shutdown.
